

## Press release

### Innovative cost planner

## Davos Congress calculates your event at a mouse click

**Davos, 13 October 2020 - Davos Congress is the first congress centre in Switzerland to launch a Quick Calculator for events of all kinds. This saves planners time and fulfils the need for a quick overview of costs. Whether a seminar for ten people or a congress for over 1,000 participants, the tool knows the figures it needs for a clear calculation. Technology, catering, hotel rooms and side events included. The link: [www.davoscongress.ch/en/planen/quick-calculator](http://www.davoscongress.ch/en/planen/quick-calculator)**

Even if it is not the most appropriate time in the congress world to report on great innovations: Davos Congress does it anyway. Sooner or later, the world will live comfortably with Covid 19 again and people will be hungry to get together physically. In the meantime, the protective conditions in the Davos Congress Centre have been set up in accordance with the regulations.

### Perfect cost planner

Anyone planning now for the near or longer-term future: the newly launched Davos Congress cost planner offers sophisticated support for small and large events. The desired organisational points can be entered at a mouse click: The type of event, number of persons, seating, catering services, additional rooms, hotel rooms, side events - in the end, a guide price will be calculated, which can be used for further specific planning in detail. One benefits from the company's many years of experience, which have been converted into the calculator. Spot Werbung St. Moritz is responsible for the programming.

### Attractive alternative possibilities with high altitude air

It is obvious that the necessary protective measures are being observed and concepts are in place at the Davos Congress Centre. However, it is fair to say that Davos offers, in addition to its congress competence, a wide range of mask-free leisure activities. The vastness of the Davos Klosters' landscape offers guests, in addition to their business stay, a successful and relaxing view of the mountains. Davos Services is a competent partner for supporting programmes.

### **About Davos Congress**

Davos Congress is part of the Davos Destination Organisation and consists of the departments Sales, Administration, Technology and Congress Gastronomy. The employees work hand in hand and as congress specialists are all-rounders with a great team spirit. The infrastructure of Davos Congress is unique in the Alpine region and thanks to the Professional Congress Organizer Service, they offer professional support in exhibitor management, participant management, accommodation management and much more.
